SECTION 1: SCOPE OF WORK AND TECHNICAL REQUIREMENTS

1. Introduction

Soil testing is a crucial activity that helps to determine the nutrient levels and overall health of the soil. To bring soil testing activities closer to farmers and encourage them to use optimum fertilizers based on soil health card reports, the Government of Andhra Pradesh has proposed to establish more soil testing labs in the state. This year, the Agriculture Department plans to collect soil samples through RBK staff at the village level, analyze them at existing and new soil testing labs, and distribute soil health cards to farmers.

The agricultural department has set a goal of analyzing a large number of soil samples, covering all the farmers in the state in coming three years (2023-24, 2024-25 and 2025-26). To achieve this, the government has decided to procure advanced soil testing equipment and provide them to the proposed new soil testing labs in the state. This equipment's will help to increase the accuracy and efficiency of soil testing, ensuring that farmers receive the most reliable information about their soil health.

2. Scope of Work :

Soil samples are collected from farmer's field and analyse the samples so as to educate the farmers to apply recommended dose of Fertilizers and also rectify micro nutrient deficiencies. During the year 2023-24 the agricultural department has planned to analyze huge number of soil samples covering all the farmers in the state. In this connection it is decided to procure certain soil testing equipment to the Soil testing labs across the State.

The following activities are to be carried out by the bidder under this assignment;

- a) Supply the list of equipment to Soil Testing Labs as per the Technical specifications of this tender document. It is the responsibility of the bidder to ensure that all the related components are supplied.
- b) Provide Warranty as per Technical specifications and Tender conditions along with Onsite warranty for 3 years for the Equipment. The companies should honor to extend Onsite warranty for another 3 years as per the request or need of the department.
- c) The equipment has to be supplied/ delivered at the locations of the Laboratories (the details are provided under Annexure –B of this document). It is the responsibility of the bidder to arrange for smooth transportation, installation, demonstration and training to the staff in operation of equipment to all Soil Testing Labs as stated under Annexure –B of this Tender document at their own cost. All the logistics has to be borne by the bidder. Bidder is responsible for any damages caused during the transportation. Any, such damaged items have to be replaced by the bidder at no

additional cost to Spl Commissioner of Agriculture, AP, Guntur.

- d) Bidder is responsible for paying of all applicable taxes and levies which includes insurance if required during transit of items to locations stated under Annexure –B.
- e) The supply of equipment is strictly based on the need and requirement of the department and the number may increase or decrease at any point of time without any prior notice.

3. Technical Specifications of Soil testing Equipment:

All the technical specifications of the items/equipment is stated under Annexure –A

4. Project Duration & Timelines

4.1 Duration

The Special Commissioner of Agriculture, Department of Agriculture issues Letter of Intent (LoI) to the successful bidder(s). The successful bidder(s) has to submit Acceptance letter to Spl. Commissioner of Agriculture within 7 days from the date of LoI. Further, the bidder has to submit the Performance Bank Guarantee (PBG) in the form of a DD or Bank guarantee for an amount equal to 5 % of the total order value based on the type of equipment and is fixed by the Spl. Commissioner of Agriculture. On receipt of Performance Bank Guarantee from the bidders, the Spl. Note: The Specifications provided above are minimum and the bidders are free to quote any equipment which is equivalent or better in terms of specifications. The Quoted Items should cover all requisites to make the Equipment fully functional

Quality of the Equipment & Timeliness of Supply:

The successful bidder should not compromise on the quality and should supply the equipment strictly as per tender specifications.

The Equipments / Items supplied by the Bidders will be verified by a team of technical experts after the completion of supply and installation.

Any equipment, if found sub-standard or not as per Tender specifications, the supplier is liable to the action taken by the Department of Agriculture and the Supplier will be blacklisted in the state on participation of future Tenders and the same will be publicized across the country.

The Supplier should supply the equipment to the Soil Testing Labs as mentioned in the Purchase Order within 15 days failing which the bidder attracts for penalization.

Annexure-B

The bidders shall deliver/supply the Equipment/items to the Soil Testing Labs mentioned below. All the logistics charges, handling charges, insurance(if any), applicable taxes etc shall be borne by the bidder
